Mr. Moore,

Thank you to you and your colleague Mr. Maurice Watkins for traveling to Austin today to meet with myself, Mr. Oaks, and other representatives from the Texas Historical Commission. Our meeting was productive and we appreciate hearing your concerns about the possibility of 1820-1860 period human graves being present on the Central State Prison Farm property, Tracts 4 and 5. Based on our discussion today, we will be contacting the Corps of Engineers, the developer of the property, the City of Sugarland, and others involved with development of the property to set up a meeting to discuss several historic preservation issues. We will endeavor to have this meeting in the Sugarland area and to use it as an opportunity to discuss appropriate preservation efforts. We will be in touch to seek your availability for the meeting, as we move forward on scheduling the meeting date.

Sincerely,

Jim Bruseth

Mr. Moore,

I met today with Larry Oaks, THC Executive Director, and outlined your
