Bill,

I will mention that the district actually sent the petition to the THC. I think they would like to be informed before or at the same time as the City.

Thank you again!!!

Reign

Thank you so much, Bill! Please notify me when I can discuss this with the district and my crew.

Thank you!

Reign,
As a heads up, Pat and I spoke with Mark about this. He decided against seeking an AG opinion and said we should simply say that we have no objection to DNA analysis, rather than we will grant permission. The effect should be the same for you, but if anyone ever decides we don't have the authority to grant permission, it could keep us out of a legal bind. I think Pat spoke with the City about this, but I'm not sure if she got ahold of them. Please don't forward this. I just wanted to put your mind at ease.
