Ms. Martin,

In answer to your question, I am attaching a copy of our current bylaws. As we are a new non-profit organization, these are all fairly vague at this point. Our board of directors are listed there.

At this point, no one has been paid for their work. We have received honorariums to cover our costs for attending events to speak on behalf of PRG, but no one draws a salary nor receives funds for their work at PRG at present. We have received a single donation of \$20 and have not used it. Donations of time, money, and research hours sent directly to (of from) our partners at University of Connecticut working on the ancient DNA have been used for that purpose.

Sincerely,

Abigail Fisher, MSc, MA, RPA

Vice Chairman, Principal Research Group

Hey Abigail, thank you so much for getting back to me. This is really helpful. Could you tell me who, on this board, was paid for their work under the initial permit? Like who was paid by FBISD and/or Goshawk? Just trying to get a sense of who has been entirely volunteer and who has been compensated.

Also, I'd love to speak to you about your isotope analysis. Could we set up a zoom in the near future?

Best,

Hi Brittany,

Catrina, Helen, Reign, and I were all employed by Goshawk for the original project. We volunteer our time, as much as we can, to PRG because we want to finish the work we started. We excavated, analyzed, and researched these individuals; now Katrina holds the permit to analyze the samples we took. I'm happy to setup a call with you, but it will have to be a Friday afternoon (I am a full time archaeologist).

Sincerely,

Abby

Thanks, Abby! I was under the impression that Helen was strictly a volunteer. Are you sure she was paid by Goshawk?  
And I'm slammed tomorrow afternoon, but would the 27th work?

Brittney,

I am not sure if Helen was paid; I was the laboratory manager so that is not under my purview. The four of us all worked on Back to Bondage and decided to continue the work. The 27th will work.

Abby
